Short Cycle Assessment: Improving Student Achievement Through Formative Assessment

Betsy Moore, Todd Stanley, and Susan Lang

This book shows you how to improve student achievement by providing students with frequent feedback on their work.

The authors take you through a step-by-step process to help you write effective questions, design your own formative assessments, administer short-cycle assessments, analyze and use data to shape instruction, and prepare your students for high-stakes tests.

Featured are activities and forms to walk you through the short-cycle assessment process step by step.

Contents include:

- The Long and the Short of Short-Cycle Assessments
- The SCORE Process
- Understanding the Content Standards
- Writing Questions that Address the Standards

Critical Thinking and Formative Assessments: Increasing the Rigor in Your Classroom

Betsy Moore
Todd Stanley

Develop your students' critical thinking skills and prepare them to perform competitively in the classroom, on state tests, and beyond. In this book, Moore and Stanley show you how to teach your students to think on higher levels, and how to assess their progress.

The authors demonstrate critical thinking as a key approach to providing a high level of rigor in your classroom. They explore the benefits of critical thinking and provide the tools you need to develop as well as monitor these skills in the classroom.

Contents include:

- Higher-Level Versus Lower-Level Thinking
- Writing Higher-Level Thinking Questions
- Assessing Critical Thinking
- Strategies to Develop Higher-Level Thinking Skills
